

Exercise-Induced Collapse Survey

Please print legibly and mail completed survey (use additional sheet if necessary) to
Amy Chandler-109 McCord-2640 Morgan Circle Drive-Knoxville, TN 37996

Age: **Sex:** **Breed:** **Approximate Weight:**

Registered with the AKC (Y/N): **Coat Color:**

Coat Type (Rough/Smooth): **Lifestyle (work, show, pet, etc):**

- 1) Did you obtain your dog from a breeder, shelter, pet store, or other? If other, please explain.
- 2) On average, what type and how much exercise does your dog receive a week?
- 3) Would you consider your dog to be under, average, or overweight?
- 4) Please provide a description of the event:

- 5) At what age did your dog experience the first collapse?
- 6) How often do the collapses occur?
- 7) Does each collapse have the same characteristics? If not, explain.
- 8) What activity was your dog performing prior to each collapse?
- 9) Does the dog remain conscious during the collapse?
- 10) On average, how long does your dog take to recover from the collapse?

Exercise-Induced Collapse Survey

Please print legibly and mail completed survey (use additional sheet if necessary) to
Amy Chandler-109 McCord-2640 Morgan Circle Drive-Knoxville, TN 37996

- 11) Does your dog appear to behave normally immediately after recovering from the collapse? If not, describe any unusual behavior.
- 12) Is there an obvious trigger before each collapse?
- 13) In between exercise-induced collapses, does your dog appear to be normal, both behaviorally and physically?
- 14) Does your dog have other relatives affected with the condition?
- 15) Does your dog's body appear to be stiff or flaccid during a collapse?
- 16) Does your dog have any other medical conditions?
- 17) What was your dog's temperature at the time of or shortly after collapse?
- 18) Has your dog ever been examined during or shortly after a collapse?
If so, what tests were administered (blood work, EKG, etc.)?
Did the tests reveal any abnormalities?
- 19) During a collapse, do you notice any changes in your dog's breathing?
- 20) Do you have any video footage of your dog during an exercise-induced collapse?
- 21) Please provide any more information that you feel is relevant to your dog's condition.
