

BCSA Versatility Program – "V" Worksheet

“V” Requirements: The “V” award is based on a point system. Each Versatility level (V, VX, VCH) is a separate award with separate requirements. Use *only the chart below* to determine the number of points your dog has earned toward the “V” award. *Points in each column (activity area) are not cumulative.* Points will be credited for only the one highest title achieved in each area. Titles from at least 3 activity areas are required.

Directions:

1. Circle *the highest* title your dog has in the area of Herding. A herding title is required for the “V” Award.
2. Circle *the highest* title your dog has in *two or more* other columns.
3. Add your points from all activity areas. A total of 7 points (across 3 or more areas) is required for the “V”.
